

BSCAB – Biological Safety Cabinet - HEPA Filter Class II A2

Download
Catalogue

H14 HEPA Filter 2pcs 99,9995% efficient

Motorized front window

Front panel and rollers included. Two-layer laminated toughened glass $\geq 5\text{mm}$, anti UV

Foot Switch

Adjust front window height by foot

Clear LCD Display with back light

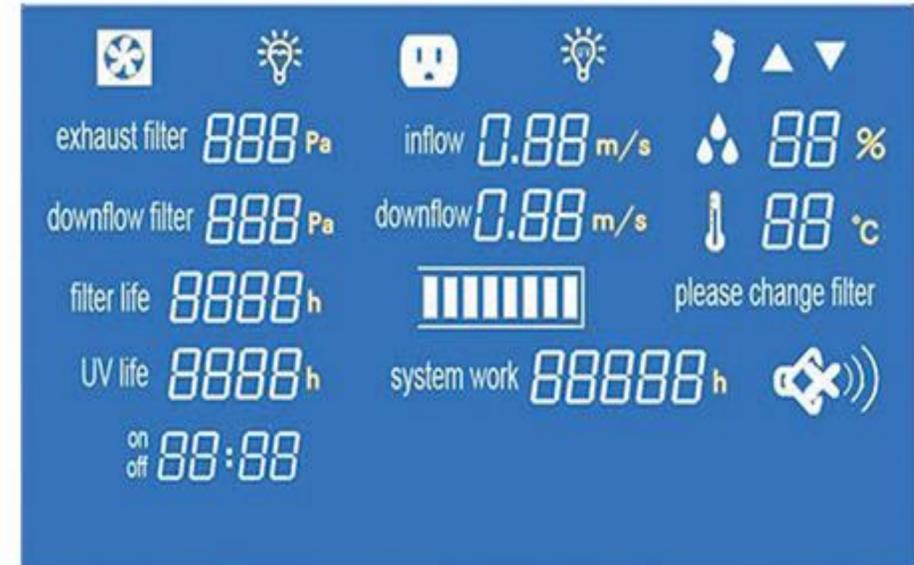

Visual and audio alarm

Visual and audio alarm for window over height, filter replacement, abnormal air flow velocity. Programmed start function,

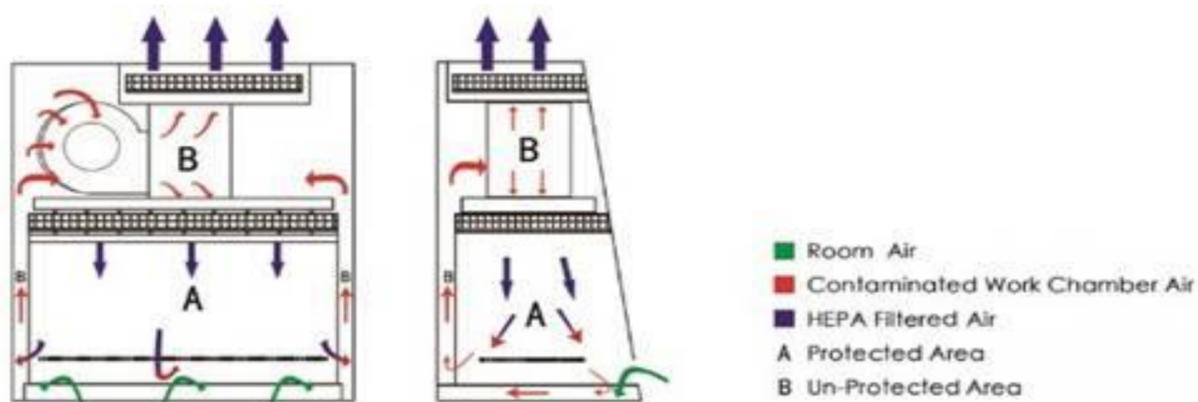

COLO BSCAB2 is fantastic biological safety cabinet with all necessary performance to meet your needs in safety and comfortable work. Two HEPA filters with 99,9995 retention possibility protect you self, and samples. Air circulation (recirculation air and exhaust air) can be regulated by eight steps. Inner working surface is made from high quality polished stainless steel S304, easy for clean and sterilization. Two inner electricity Water proof sockets provide 500W consumption in for your devices inside. On large LCD display operator can follow all necessary parameters such as a temperature, RH, total work time of device, exhaust and recirculation air flow, state of UV and LED light. Universal caster with brake and levelling feet...

- Main body made from cold rolled steel with antibacterial powder coating
- H14 HEPA filter 2pcs 99,9995% efficient,
- Air speed adjustment in the conditions of partial clogging of the filter
- The work surface surrounded by negative pressure, ensures maximum safety in the work area. Automatic air flow adjustment, with the possibility of blocking the filter.
- Three protection: operator, sample and environment.
- Filter life indicator
- Time Reservation function (for setting the sterilization time of the work surface).
- Motorized front window, anti UV toughened glass,
- UV lamp with timer and UV life indicator, at 253nm,
- Two water proof sockets
- Clear LCD Display with back light
- Foot switch – Adjust front window height by foot
- Visual and audio alarm for window over height, filter replacement, abnormal air flow velocity. Locking function of lamps, frontal panel and fan.
- With the remote control the operator can adjust all parameters on the device
- The following parameters are displayed on the LCD
- Temperature
- Relative humidity
- Temperature
- Total hour system work
- Total filter life,
- UV light life
- Level of ventilation speed
- Inflow air speed m/s
- Down flow air speed m/s
- Filter replacement warning

Cabinet type	BSCAB2110	BSCAB2130	BSCAB2150
Price			
Bio Safety Class	II A2 - Vertical Air Flow Flow		
Internal Size (W*D*H)	940*600*660	1230*600*700	1350*600*660
External size (W*D*H) (without stand)	1100*750*1450	1380*795*1450	1500*750*1450
Tested opening safety height mm	200 mm		
Maximum opening mm	420mm	420mm	500mm
Inflow velocity	0,53 ±0,025m/s		
Down flow velocity	0,33 ±0,025m/s		
HEPA filter	2pc * 99,9995% efficiency at 0,3µm		
Noise	EN12469 ≤58dB / NSF49 ≤61DB		
Filter life indicator	Yes		
Front window	Motorized, toughened glass anti UV		
UV Lamp	1*30W at 253,7nm	1*30W at 253,7nm	1*40W at 253,7nm
LED Lamp	2*12W (21W optional)	2*12W (21W optional)	2*12W (21W optional)
Illumination	≥1000Lux		
Consumption	760W	800W	900W
Socket	2 total load of two sockets 500W		
Food switch	Adjust front window height by foot,		
Display	LCD (display temperature, humidity, timer, air speed recirculation, air speed exhaust)		
Visual and audio alarm	Filter replacement, window over height, abnormal air flow velocity		
Control system	Microprocessor		
Airflow system recirculation/Exhaust	70% air recirculation 30% air exhaust		
Material	Work zone 304 stainless steel , Main body Cold rolled steel with anti bacterial coating		
Caster	Foot master caster		
Work surface height	750mm , (can be changed with adjustable base stand)		
Power supply	AC220V±10%, 50/60Hz; 110V±10%, 60Hz		
Weight	280kg		
Standard configuration	LED Lamp, UV lamp*2, remote control , 2* water proof sockets, base stand, foot switch,		
Optional configuration	Electric adjustable base stand, Universal caster with brake and levelling feet, SS Water tap * 1, SS gas tap * 1, fluorescent lamps, drain waive, IQ-OQ Certificate, Air Flow Certificate ,		

LCD Display with back light

Please note
 If this Biological Safety Cabinet does not match the specific needs of your application, or some options are not listed for sale, please feel free to contact us. Our manufacturing engineers will come up with technical solutions to meet your needs. We reserve the right to change technical specifications at any time.
